About me

I have found nothing satisfies me more than meeting new people, developing new relationships, solving problems, and contributing to the overall growth of business. Throughout my career, I am driven by my intellectual curiosity to find the answers to the most pressing questions. Whether it's finding a perfect song in my playlist or finding solutions to the project(s). I've been able to quickly uncover a customer's pain point(s) and identify a strategic solution, yeah!! I am a process lover.

I occasionally write blog and tweet about technologies.

References & Documentation Available on Request

I solemnly declare that the above information is true and correct to the best of my knowledge.
